Adjustable Crowd Alley

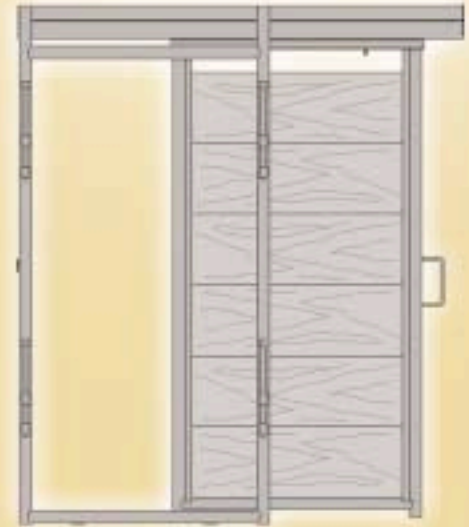

An original concept by W-W, this unique three section crowd alley with two alley stops is designed to encourage the forward movement of cattle with minimum stress into the working chute.

Length	25'
Top Width Adjustment	18" to 33"
Bottom Width Adjustment	11" to 24"
Curve of Crowd Alley	60 degrees

Adjustable Panel Alley

Add an Adjustable Slide Post to your 38 1/2" Alley Control frame and attach Classic Panels to create an efficient and safe single animal crowding alley to complete your system. Connecting pins on W-W Alley Control Frames are compatible with Classic and Chaparral Panels.

Block Door rolls quietly and smoothly on rust free Celcon wheels that never need lubricating. Block Door is available in 32" and 38 1/2" widths. Alley Control Frame is also available in 32" and 38 1/2" widths. 32" Alley Control Gate mounts in a 7' frame and features a spring-loaded latch.
